Valmichael,

I just heard back from David – they don't have any samplers left, but we could probably get some from Dr. Danny Reible if we still want to.

Regards,

Gary Miller

Valmichael,

No, not yet – I will send a reminder. On the sampling scope, I have a draft to the partner agencies for review/comment & have asked for comments this week. I will final it then (next week?) & send it to PRPs to do a sampling plan. Will also send final scope to dive team. One thing I have been considering is asking the dive team to do the underwater inspection, pics, sonar, but not the sample placement & retrieval. Instead the team could do oversight of the PRPs contractors doing the placement. Any thoughts on doing it that way?

Thanks,

Gary Miller

Please see the email below – there are quite a few barge operators using the Old River Channel south of I-10.

Thanks,

Gary,

I asked Garry McMahan about barge companies operating on the south side of I-10-San Jacinto River-Old River. Please see his response below.

Linda Henry
Associate General Counsel
Port of Houston Authority

I have an idea. There are quite a few.
The largest is Kirby. Also,
Boone Towing
E-Squared
Harley Channelview Properties

Then there are companies who use barges but are not "barge" companies
MARMAC
K-Solv
Orion Construction

Garry,

Do you know which barge companies are located on the south side of I-10 – San Jacinto River-Old River? Thank you.
